

HY-Motor run capacitor series (CBB60)

Short Description:

1. Self-healing metallized polypropylene film capacitor
2. Feature: low dissipation factor, small inherent temperature rise, excellent self-healing Stability, safety and high voltage withstand
3. Used for single phase AC motor
4. Special requirement can be made according to customer's request

PRODUCT DETAIL

PRODUCT TAGS

Main Feature

Low dissipation factor,small inherent temperature rise.excellent self-healing stability,safety and high voltage withstand,etc.

Applications

Low dissipation factor,small inherent temperature rise.excellent self-healing stability,safety and high voltage withstand,etc.

Manufacturing

Self-healing metallized polypropylene film capacitors Non inductive winding .

Wound capacitor elements fully immersed into resin .

Self-extinguishing plastic case .

Execulions :

Flat bottom-metal fixing stud M8×1 2

faston terminals 0.8×6.35 simple or double

standard distance p=13.2mm±0.5

unipolar cable-bipolar cable

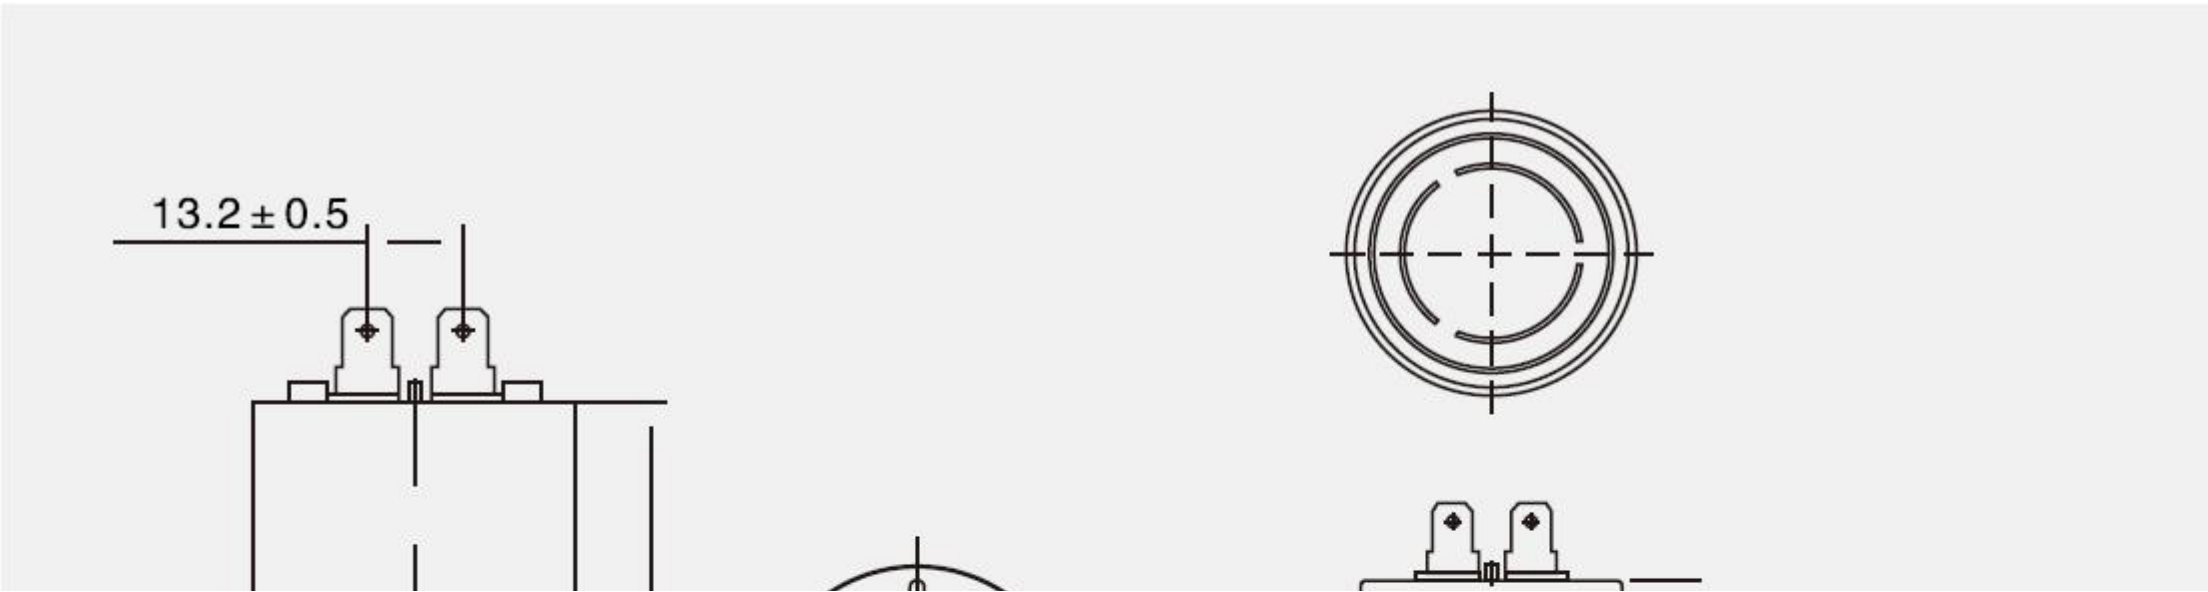

discharge resistance-Dlaslic cover

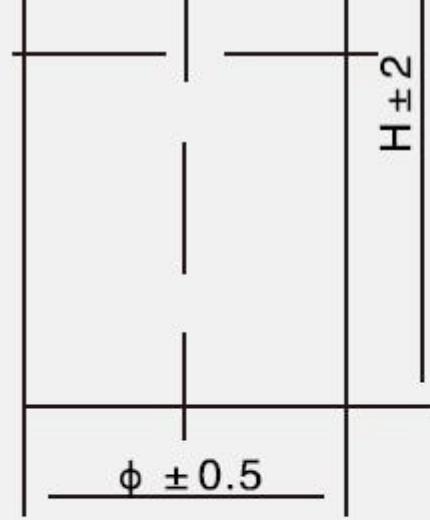

Techinnical Parameters

Capacitance range	1-150μf
Rated voltage Un	250v.ac/400/450V.ac

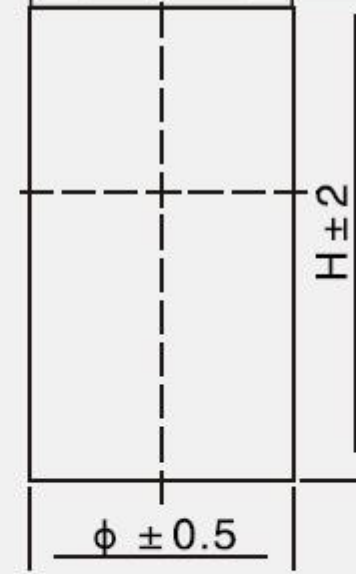

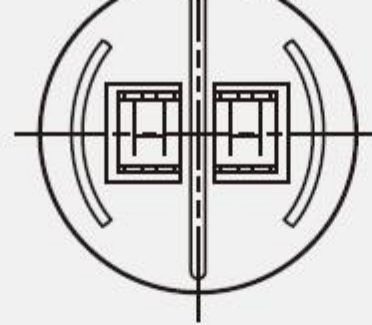

Rated frequency	50Hz;60Hz
Capacitance tolerance	±5%;±10%
Climatic category	-25+70°C
Dissipation factor(at 50Hz-Hz and 20°C)	≤0.002(100Hz,20°C)
Test voltage between terminals	2*Unfor3s
Test voltage between terminals and case	2*Un+ 1000VDC FOR 2s
Reference standard	EN 60252-1:2001;IEC252

Products Overall Dimension
