ASSEMBLY INSTRUCTIONS

Before attempting to assemble your grill cart, check that all the necessary parts are included by using the illustrated parts list. Inspect parts for any damage and contact our service center or local dealer for replacement of any damaged parts. Do not assemble or operate a grill cart that appears to be damaged. For your safety, Bull recommends the assistance of another person when assembling larger and/or heavier items.

Step. #1 Remove the four casters, screws and washers from the included package. Assemble the casters onto the bottom panel of the cart body with four 8 X 20 mm phillips head screws (1C) ,four Single coil washers(1H) and four 8.5 X 16 mm medium flat washers (1D) per caster. Be sure to attach the two casters with brakes on the same end. Note: Hand tighten all caster screws prior to tightening with a screwdriver. Failure to do so may cause irreparable damage to the caster screws. You may find it easier to do this if you flip the cart upside down.

Please read and understand all safety, warning and use instructions in the grill manual before use.

CLEANING & MAINTENANCE

CLEANING THE GRILL CART

2 easy steps to help you clean your grill cart:

Make sure the grill head and cart are cool to the touch.

Wipe down the cart with stainless steel cleaner.

STAINLESS STEEL CLEANING AND MAINTENANCE

Stainless steel is a corrosion resistant chromium/nickel alloy steel that is both durable as well as strong with an outstanding luster. The goal of your cleaning and maintenance routine should be to keep the stainless steel's protective chromium oxide layer intact. This is what prevents corrosion. Contrary to popular belief, stainless steel is NOT rustproof, especially in the environment of a swimming pool. Chlorine, bromine, some fertilizers and other elements are extremely caustic chemicals for stainless steel. These chemicals combined with heat and humidity greatly increase the corrosiveness of these chemicals. Regular cleaning is the best way to prevent corrosion and add years of enjoyment to your Bull stainless steel products.

WARNING! Do not remove the secondary tank prevention bar. Storing a second tank in your cart could cause serious injury.
