## Safety Notes ⚠️

○ Please read the following notes carefully because they include important safety information about the installation, usage, and maintenance of this product.

○ Always make sure that the voltage of the outlet to which you are connecting this product is within the range stated on the decal or rear panel of the fixture.

○ This product is for indoor use only! To prevent risk of fire or shock, do not expose this fixture to rain or moisture.

○ Make sure there are no flammable materials close to the unit while operating.

○ Always install this product in a location with adequate ventilation, at least 20 in (50 cm) from adjacent surfaces.

○ Be sure that no ventilation slots on the unit's housing are blocked.

○ Always disconnect this product from the power source before cleaning it or replacing fuse.

○ Make sure to replace the fuse with another of the same type and rating

○ If mounting this product overhead, always secure it to a fastening device using a safety cable.

○ The maximum ambient temperature (Ta) is 104°F (40°C).

○ In the event of a serious operating problem, stop using the unit immediately.

○ Make sure the power cord is not crimped or damaged.

○ Never disconnect the power cord by pulling or tugging on the cord.

○ Always avoid direct eye exposure to the light source when this fixture is on.

Technical parameter
