

# UNO SLOT PINOUT

■ Power  
■ GND  
■ Arduino pin name GPIO  
  Arduino pin name GPI  
 Port name  
  Physical Chip pin name  
  Analog input  
  SPI  
  UART  
  I<sup>2</sup>C  
 PWM

👁 Some pins of the microcontroller are electrically connected on the board between themselves:  
 1. D6 and D20  
 2. D10 and D21
