

EP TECHNOLOGY 5.0

**15 mm crimper**

**Volume & mini crimp**

**Creates a defined crimped pattern  
for added volume**

**Gives style and long-lasting texture  
in the hair**

## EP TECHNOLOGY 5.0

For plates:

1. 3 x harder & longer lasting\*
2. 3 x smoother\*
3. hard-wearing to chemicals
4. lasting & perfect results
5. hair respected & sublimated

For perfect, long-lasting results:

- preserves the integrity of the hair
- hair is soft and shiny
- even heat distribution makes faster styling results that last longer

For intensive professional use:

- perfect resistance to wear-out, chemical products and high-heat
- even smoother plates
- time and energy savings

## Volume at the roots and trendy crimps

This is the perfect tool to get that extra volume and a lift from the scalp; even thin hair looks incredible full after using it. It can also be used to crimp all of the hair to add volume and body to it or crimp only a few sections to accentuate the contrast. These perfect results can be achieved thanks to the exclusively thin teeth of the plates

## Universal for all hair types

3-level temperature control temperature control –from 140°C to 200°C- lets it to be used on any type of hair from the most fragile to the most difficult one, from the thinnest to the coarsest one.

### Practical

**Digital display** to know the temperature setting in the blink of an eye.

**Locking system** for even faster heat-up and easier storage. The crimper can then be stored effortlessly by keeping it closed using its exclusive locking system. This way there is no need to wind the cord around the crimper to keep the unit closed.

### Safe

#### Heat-resistant mat

The BAB2310EPCE is provided a multi-layer heat-resistant mat. After use, it is recommended to let the unit cool on its mat to protect the surfaces.

#### Auto shut-off

If the unit remains unused for longer than about 72 minutes, the auto shut-off will turn the unit off; this option increases the life of the unit and provides greater safety.

BAB2310EPCE ►

### Features

- EP TECHNOLOGY 15mm x 90mm plates
- Fast heat-up up to 200°C
- Temperature selector – 3 settings (140°C-170°C-200°C)
- Auto-off after 72 minutes
- Locking system to store the unit easily and better protection for the plates
- On/off switch & indicator light
- Professional 2.70m swivel cord
- Insulated, multi-layer, heat-resistant mat
